BSc Hons Computer Science graduate (2:1), over 6 months experience as a Data Analyst as well for TEAL Ltd as well as part-time Front-End Web Developer gained through **Skill Soft Student Code Learning People Front End Developer Certification 2021**.

In these years of learning how data works as an analyst, as well as learning the core of front end. I have developed my skills in java, SQL, JavaScript, html5, CSS to be able to collate data and display in a **functional design**.

Currently searching for a position as Junior Software Developer to further develop my skills as a developer and as an analyst.

Languages	Frame Works	Methodologies	Data Analysis	Hardware/Software
Java	SQL	AGILE	Microsoft Excel	Software Development (SDLC)
Object Oriented Programming (OOP)	ReactJSx	SCRUM	SPSS	Hardware configuration - PC Building
JavaScript	Bootstrap	SPRINT	Microsoft BI	
HTML5	TAILWIND	GANT Charts	SQL, Progress SQL	
CSS	MongoDB			
React				

Summary

- Logical thinking and fixing algorithmic problems
- Working with **AGILE**, **Gant** and **SPRINT** methodologies in software development.
- **Object-Oriented Programming (OOP)**, **polymorphism**, **encapsulation**, and **inheritance** in **Java programming**
- Good Knowledge of using quantitative analysis tools such as **SQL** and **SPSS** gained during my data analysis & Software Engineering module project at university.
- **Building computer Hardware** such as constructing fully functioning computers from PC parts (with water cooling).
- Able to take Leadership as I gained the fundamentals while being assigned to a group of 14 students across 2 modules in my Final Year of University.
- Enthusiastic to work in a team and make a positive impact while executing tasks.

Achievements

- Developed a **prototype application** that shows Users the kind of **web cookies** found in each web page on android studio.
- Achieved a credible Web Development Certification Course from Skill Soft Learning People.
- Successfully built a **fully functioning water-cooled Personal Computer** after learning from an online tutorial

Professional Certifications

SkillSoft FRONTEND DEVELOPER COURSE 2022

- Web Developer course in which I developed strong fundamentals and advanced levels of JavaScript, CSS and HTML5
- Projects involving the use of Database integration (MongoDB, SQL, etc) with Frontend UI (**React**, **VueJS**, **CSS3**).

Project 1: E – commerce store app

Description: Prototype Template for an E-commerce web application.

Languages and Technologies used: React, JavaScript, HTML Tailwind CSS

GitHub: <https://github.com/Osomasi/Ecommerce-App>

Project 2: Personal Portfolio

Description: Website Portfolio developed holding all current projects.

Languages and Technologies used: Html, JavaScript

GitHub: <https://github.com/Osomasi/MasiEmil-Portfolio-2022>

Project 3: Quiz App

Description: Anime Quiz App created

Languages and Technologies used: React, JavaScript

GitHub: <https://github.com/Osomasi/Quiz-Game>

Education

Grade Bound (A = 73-79, B+ = 68-69, C+ = 58-59, C = 53-57).

Brunei University, Uxbridge, Middlesex

BSc (Hons) Computer Science

January 2019 to June 2021

Networking: A*

Software Engineering: B

Introductory Programming (B+)

Software Development and Management: B+

Logic and Computation (A)

Data and Information (A)

Work Experience

- ADDO Play TEAL LTD as a **Data Analyst** **03/22**
Roles:
 - Using Macros to ensure best practice in automating weekly reports.
 - Creating and continuously improving Spreadsheets.
 - Analysing Data to keep its integrity and accuracy (eliminating anomalies)
 - Microsoft BI and Excel Integration
 - Database Management and modifications
- Worked as an Academic Teaching Assistant for my University for modules (Data and Information/Logic and Computation). **06/21**
Roles:
 - Assigned to a group of 15 students to guide in Computer Science Modules
 - Teaching students while working under my Lecturers in Labs and classes online.
 - Teaching students coding
 - Attending meetings with lecturers on structures of lectures and group allocations
